THE EVENT

Asia Fine Art, Hong Kong presents the works of six modern and gifted woman artists in its annual Woman Artist Contemporary Art exhibition at The Lee Gardens, Causeway Bay. Some 35 fine paintings will be shown in this 9 day event, opening Saturday 5th May running until Sunday 13th May.

The six artists are from Hanoi, Yangon, London and Hong Kong. Each artist has her own different style of work in contrasting mediums – with wide ranging subject matters depicting the magic of music in life, whimsical fantasy figures, the power of meditation, beauty in nature, urban nomad and the impression of modern city life.

THE ARTISTS

Artists **Ly Tran Quynh Giang** and **Ta Thi Thanh Tam** are two very independent women artists of repute whose works have had an influential impact on Vietnam art – **Giang** with her free flowing brush strokes and **Tam** with her whimsical fantasy figures painted on Vietnamese lacquer.

Artists **Nann Nann** and **Aye Nyein Myint** are from the new generation of young woman artists in Myanmar. **Nann Nann** is an accomplished sculptress as well as being a top rank abstract painter. **ANM** is 28, now painting in acrylic but still capturing the beautiful matching colours and fine detail that made her pastel painting so collectable.

Mediha Ting was born in Belgium, grew up in Hong Kong, the UK and the US and is now based in London. **Mediha** is truly international in her approach to life and creativity. Her multi media works are attractive and talking points.

This is **Eileen Chan**'s second exhibition. Already her delicately painted landscapes and fantasy works in ink and colour are becoming sought after. **Eileen** was born in Hong Kong, educated in Canada and now lives in Hong Kong.

Six artists, six very different styles and works in six contrasting mediums.
